# Brush'n'Push™

An innovative new sink tool that combines a dish brush with a pusher to help push food waste into a food waste disposer.

## Strong bristles for great dish cleaning

The Brush'N'Push™ bristles are made from high quality nylon able to effectively clean dishes.

## Design allows brush to stand up

At hand on your bench-top when you need it.

## Thick handle for non-slip grip

The thickness of the brush allows for easy use.

## Dishwasher safe

The use of high quality materials allows the Brush'N'Push™ to be cleaned in the dishwasher.

## Color change indicates how far to push food waste into the disposer

The color change indicates a safe distance to push the Brush'N'Push™ into a food waste disposer.

## Rubberized to grip food waste

Over-molded rubber helps grip food waste being pushed down the Food Waste Disposer.

## Dimpled end to grip food waste

Dimples on the base helps grip food waste being pushed down Food Waste Disposer.

# WATER FILTERS

## Filtered water... just tastes better!

All InSinkErator water taps come with an in-line filtration system using replaceable cartridges. The super fine 5-micron filters reduce impurities and odours, giving you better tasting water for your water bottle, coffee or tea.

## Easy removal & installation of new filter

The twist-off/twist-on filter is easy to install and designed so the water automatically shuts off when the filter is removed, eliminating the need for a separate shut-off valve.

Depending on local water quality and usage volumes, filter replacement is recommended every 6-12 months.

### F-701R Twin Pack Replacement Filters

- Super fine 5 micron filter for even cleaner water
- Quick-Connect Push-In Fittings guarantees a quick, easy installation
- Valve-in-Head Design automatically shuts off water flow when filter cartridge is removed, eliminating need for separate shut-off valve
- Low Pressure Drop Filter design assures consistently flawless performance
- Reduces chlorine, lead, turbidity, particulates & other unpleasant tastes and odours
- NSF Standard 42
- 6-12 month expected filter life, depending on water quality and use
- Two filter cartridges per pack
